BAD Brewing Company is a small Microbrewery located in downtown Mason, MI that opened in the July of 2012. The list of beers include at least 5 house beers that will be on tap at all times with several more on a rotating basis. All of the beers are hand crafted by the owner, and new recipies are always in the works. They've pre-packaged snacks available, and you can also bring your own food in! BAD Brewing looks forward to serving Mason and the greater Lansing area the finest hand crafted beers possible.
